PROFESSIONAL SUMMARY

Web developer and CUET student focused on building responsive, modern web applications with React, Next.js, Tailwind CSS, Node.js, Express.js, and MongoDB. Experienced in developing full-stack projects featuring authentication, REST APIs, database integration, responsive interfaces, and reusable components. Interested in frontend and full-stack web development, with a strong focus on clean UI, usability, and continuous learning.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript, HTML5, CSS3, Tailwind CSS, DaisyUI, Hero UI

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, MongoDB Atlas

Authentication: BetterAuth

Tools: Git, GitHub, VS Code, Figma

UI/UX: Responsive Design, Component-Based UI, Modern Web Design

PROJECTS

NexFit — Gym Management Platform

Next.js / React / Node.js / Express.js / MongoDB

A modern gym management platform designed to help gyms manage members, trainers, schedules, and fitness-related operations through a centralized web application.

- Designed a responsive dark-themed interface with a modern fitness-focused visual identity.
- Built reusable React components and responsive layouts.
- Developed the application using a full-stack architecture with frontend, backend, and database integration.
- Focused on creating a clean and intuitive user experience across desktop and mobile devices.

SportNest — Sports Facility Booking Management System

Next.js / React / Express.js / MongoDB / BetterAuth

A full-stack platform for discovering and booking sports facilities, with functionality for both users and facility owners.

- Built facility browsing, details, and management interfaces.
- Implemented facility creation, editing, and deletion functionality.
- Developed REST API endpoints using Express.js.
- Integrated MongoDB Atlas for application data management.
- Implemented user authentication using BetterAuth.
- Created responsive interfaces optimized for different screen sizes.

Readify — Online Book Borrowing Platform

Next.js / React / MongoDB / BetterAuth

An online platform for browsing and borrowing books through a modern web interface.

- Built the application using Next.js and React.
- Implemented authentication using BetterAuth.
- Integrated MongoDB for application data storage and management.
- Developed responsive book browsing and management interfaces.
- Used reusable components to maintain a consistent user experience.

EDUCATION

Chittagong University of Engineering & Technology (CUET)

B.Sc. in Mechatronics & Industrial Engineering (MIE)

Batch 24 · Current CGPA: **3.15 / 4.00**

Government Hazi Mohammad Mohsin College

Higher Secondary Certificate (HSC) — Science

2024 · GPA: **5.00 / 5.00**

Chittagong Collegiate School

Secondary School Certificate (SSC) — Science

2022 · GPA: **5.00 / 5.00**
